OUR CIRCULATION. We mean to keep the following paragraph stan ding for the benefit of all whom it may concern: ADVERTISING, -We would commend the following facts to the attention of the advertising community. The "Wilmington Journal" circulates upwards of ELE-VEN HUNDRED COPIES weekly. Its circulation in the town of Wilmington is as large as that of any other paper published in the place. We would further state that its circulation in the counties which trade to this place is Artis, Clinton THREE TIMES as large as that of any other paper published in North Carolina, and that its list is daily increasing. We say, therefore, without the fear of contradiction, that it is the best vehicle for advertising which the people of Wilmington can select. One other observation We think, that although a large majority of the readers Burress, Delia of the "Journal" are Democrats, still THEY occasionally to a little trading, as well as the readers of the whig papers. We have written the above merely for the Information of those who are most deeply interested-busi- Brinkley, J W

All the government horses in the use of the officers and other persons attached to the army, have been ordered to be turned-in for the use of Col. Harney's Dragoons, a great number of whom have been left on foot by the wreck of the Yazoo.

From the stubbornness of a mule train conveying the mortars to position last night, one of the mortars was dropped before it arrived at its proper place. The Mexicans discovered it, and continued during the night an uninterrupted fire upon it, in hopes, I presume, of killing some of our men, if they attempted to remove it under cover of the night.

At 10 o'clock to-day a white flag was sent into the city. The bearer of it conveyed a considered one of the most daring feats that forces. This message was a formal summons to surrender the city of Vera Cruz and the Castle of San Juan de Ulua, without a resort to any further defence, as the General-in-Chief of the American forces desired to avoid any further bloodshed. Gov. Morales replied in a very dignified tone and style of language, in substance, that he was sorry to be the cause of unnecessary bloodshed and loss of life, but that he had a high and important duty to perform, involving the honor of his army and the interest of his country, and that he would not surrender until he had exhausted every means

Rumors were passing to and fre in double quick time from headquarters to the man with the spy glass, who duly reported all he could see, which was little else than fire, smoke and dust, but then he had "a right to think," and an official thought in the army is worth the

opinions of all the sensible men in it. Many of the spectators, who were far enough in the rear to be out of danger themselves, expressed strong fears that the gallant little band, who were there as a guard to the mortars, would be compelled to return; but the mass felt confident that no man would leave that spot with his life-that those men went there to perform a duty to their country, and fully understanding and appreciating their position, would prefer leaving their lifeless bodies on the ground to returning one inch therefrom. The only term that ever can be known to such an army as we have here at present, in the decision of a battle, is victory compromising and apology-but a victory that will redound to the honor of the country, and one that those who participate in achieving may look back upon, from the "sear and over some fellow creatures' heads, but cannot and I killed. As soon as Com. Perry perceived the land forces engaged, he ordered Capt. Tatnall, with what is called the " Musquito Fleet," consisting of the steamers Spitfire and Vixen, and five gunboats, viz: Reefer, Bonita, Tampico, Falcon, and Petrel, to attack. Capt. Tatnall inquired at what point he should engage .-Com. Perry very emphatically replied-UGAR, Coffee, Segars, Butter and Cheese, of the best quality, in assorted size packages, and for sale by HOWARD & PEDEN.

Our batteries worked last night, and up to 9 o'clock this morning, with apparent increased vigor, when a flag of truce was received by Gen. Scott, with a proffer on the part of the Mexicans to treat for a surrender. Accordingly, a commission on our part was appointed, consisting of Gens. Worth and Pillow. Col. Totten, and Capt. Aulick, of the navy, who met the Mexican commission at the Lime bout one mile distant, and they continued in

session during the day.

Early this morning a Norther sprung up very suddenly and blew most furiously all day. Rude Boreas piped his shrillest whistle, and o'd neptune seemed to do his best, in the general commotion by land and sea; the rifted clouds flew like sablewinged messengers of death through the air; while the furious, lashed ocean piled her crested waves far upon the beach. The clouds of sand swept like hail across the strand, from hill-top to the valley's depth, and almost like the famed sirocco of Egypt, with maelstroom-force, or the sweep-ing blast over Zahara's desert, filled the air with darkness, and man and beast with feelings of dismay. The mariner was tempest-tossed by the ed their arms and marched off. Our troops then quick surges of the angry deep, and fear might moved in column into the city at 2 o'clock, plancowered low, to escape the drifting sand that, in but a short time previous had waved that of a vain almost impalpable particles, penetrated even the and conceited foe. The enemy was eveidently in a bad position and trying to get the best terms possible. But General Scott. I think I may safely say, representing the interest of our country, and holding, as it were, the honor of our arms in his grasp, will accede to no proposition but such a one, in general terms, as he may advance. He would prefer whipping terms out of them, inch by inch, if necessary, than to yield the interests of the nation, or honor of our flag. A general impression pervades the camp to-day, that the Mexicans are treating only for the purpose of repairing breaches and fixing up their destroyed fortifications; but our engineers and ordnance officers have not been behind them in this our guns in better position, supplying the magazine with ammunition, and providing the army with scaling ladders and their appurtenances, ready to scale the walls, and pass the breaches, if necessary to take the city by storm.

Gen. Patterson has acquired for himself a high eputation as a gallant soldiers and able officer. His official duties have necessarily been heavy respect. During the day, we have been placing and laborious; in which he has been well sustained by an efficient staff, consisting of Maj. G. A McCall, Capt. McClelland, Lieut, S. Williams and Lieut. Mead.

Although the veteran Twiggs and that able of ficer Col. P. F. Smith have not had an opportunity of attacking the city, or figuring conspicuously in the engagement, they have had an important and responsible position assigned them, on the road to Mexico, which they maintained and

occupied with great vigilance. The general health of the army is good. The men have been well supplied with provisions since their first landing; but how could it be otherwise with such an officer as Capt. Grayson at the head of the department, seconded by the quartermas-

Tenbrinck and Nichols, and the whole Phœnix company of Louisiana and are allowed to retire into the country on their Volunteers, have passed through the battle without injury. The army is not entitled to prize money, and I can see no good reason why the Navy should not receive at least one half of the captured property. They terson, together with any detachment from the U. have done all the labor in landing the army and S. Squadron under Com. We find in the Union the despatches of Gen. Scott, giving the official accounts of the investment, bombardment, and surrender of the city of Vera Cruz, and also the despatches of Com. Perry, the commander of the naval forces, which co-operated with the army in that gallant affair. We do not intend to give these despatches in detail, and for these two reasons, which our readers, we doubt not, will deem good. In the first place. we have compared them with the long and animated account which we give in another place, and find that they do not differ in any material part from it; and in the second place, our limits will not permit us. HEADQUARTERS OF THE ARMY OF THE UNITED STATES OF AMERICA, Camp Washington, before Vera Cruz, March

22, 1847. The undersigned, Maj. Gen. Scott, generaln-chief of the armies of the United States of America, in addition to the close blockade of the coast and port of Vera Cruz, previously established by the squadron under Com. Connor, of the navy of the said States, having now fully invested the said city with an overwhelming army, so as to render it impossible that its garrison should receive from without succor or reinforcement of any kind; and having caused to be established batteries, competent to the speedy reduction of the said city, ne, the undersigned, deems it due to the couresies of war, in like cases, as well as the Robles. rights of humanity, to summon his excellency, the governor and commander-in-chief of the city of Vera Cruz . to surrender the same to the arms of the United States of America,

present before the place. The undersigned, anxious to spare the beauiful city of Vera Cruz from the imminent hazard of demolition—its gallant defenders from a useless effusion of blood, and its peaceful inhabitants-woman and children, inclusivefrom the inevitable horrors of a triumphant assault, addresses this summons to the intelligence, the gallantry, and patriotism, no less than to the humanity of his excellency the governor and commander-in-chief of Vera Cruz. The undersigned is not accurately informed whether both the city of Vera Cruz and the

castle of San Juan de Ulloa be under the command of his excellency, or whether each place has its own independent commander but the undersigned, moved by the considerations adverted to above, may be willing to stipulate that, if the city should by capitulation, be garrisoned by a part of his troops, no missile shall be fired from within the city, or

The undersigned has the honor to tender to governor and commander-in-chief of Vera Cruz, eration of the undersigned.

WINFIELD SCOTT.

[Translation.]

The undersigned, commanding general the free and sovereign State of Vera Cruz, has informed himself of the contents of the note which Maj. General Scott, general-in-chief of the forces of the United States, has addressed to him under date of to-day, demanding the surrending of this place, and castle of Ulloa; and, in answer, has to say, that the abovenamed fortress, as well as this place, depend dence placed in him by the government of the nation, to defend both points at all cost, to effect which he counts upon the necessary elements, and will make it good to the last; therefore his excellency can commence his operations of war in the manner which he may consider most advantageous.

The undersigned has the honor to return to the general-in-chief of the forces of the United States, the demonstrations of esteem he may be pleased to honor him with.

God and liberty! Vera Cruz, March 22, 1847. JUAN MORALES.

Here ollows the report of the Chief of artillery, giving an account of the manner in which his department was conducted.

Here also follows the letter from the foreign Consuls, mentioned in Gen. Scott's despatch, requesting him to grant a truce to en-

Sir: The flag of the Untied States of America floats triumphantly over the walls of this city, and the castle of San Juan de Uloa.

enclose a copy of the document.

I have heretofore reported the principal incidents of the siege up to the 25th instant,-Nothing of striking interest occurred till early

in the morning of the next day, when I received overtures from Gen. Landero, on whom mand. A terrible storm of wind and sand made it difficult to communicate with the city, place. ever, the most important parts of the official and impossible to refer to Com. Perry. I was obliged to entertain the proposition alone, or to continue the fire upon a place that had shown a disposition to surrender; for the loss March, and contain details of the proceedings of a day, or perhaps several, could not be permitted. The accompanying papers will show

the proceedings and results. Yesterday, after the norther had abated, and following contains some particulars which we the commissioners appointed by me early the morning before, had again met those appointed by Gen. Landero, Com. Perry sent ashore his second in command, Capt. Aulick, as a commissioner on the part of the navy. Although not included in my specific arrangement made start for Philadelphia, I have but a moment to with the Mexican commander, I did not hesitate, with proper courtesy, to desire that Capt Aulick might be duly introduced and allowed in awful activity this morning. The effect is, to participate in the discussions and acts of no doubt, very great, and I think the city canaccredited. Hence the preamble to his signature. The original American commissioner were Brevet Brigadier General Worth, Brigadier General Pillow, and Col. Totten. Four more able or judicious officers could not have

> been desired. I have time to add but little more. The remaining details of the siege; the able co-operation of the United States squadron, successively under the command of Commodores Conner and Perry; the admirable conduct of the whole army-regulars and volunteersshould be happy to dwell upon as they deserve; but the steamer Princeton, with Com. Connor on board, is under way, and I have commenced organizing an advance into the interior. This may be delayed a few days, waiting the arrival of additional means of transportation. In the meantime, a joint operation, by land and water, will be made upon Alvarado. No lateral expedition, however, shall interfere with the grand movement to-

ward the capital. In consideration of the great services of Col. Totten, in the siege that has just terminated most successfully, and the importance of his presence, at Washington, as the head of the engineer bureau, I intrust this despatch to his personal care, and beg to commend him to the very favorable consideration of the department. I have the honor to remain, sir, with high respect, your most obedient servant

Proposition for the oppointment of Commissioners.

I have the honor of transmitting to your excellency the exposition which has this moment been made to me by the Senores Consuls which they solicit that hostilities may be suspended while the innocent families, in this batteries have already had a terrible effect on place, who are suffering the ravages of war, be enabled to leave the city, which solicitude cordance with the rights of afflicted humanity, I have not hesitated to invite your excellency to enter into an honorable accommodation with the garrison, in which case you will please name three commissioners who may meet at some intermediate point, to treat with those of this place upon the terms of the accommodation.

With this motive I renew to your excellendy my attentive consideration. God guard your excellency, &c. On account of the sickness of the com-

manding general, Jose Juan De Landero. Major General Scott.

On the reception of the above, General Scott appointed Gens. Worth and Pillow. and Col. Totton, his commissioners to treat for the surrender of the city and castle, and the Mexican commander, appointed Colonels D. Jose Gutierrez Villanueva, D. Pedro Miguel Herrea, and Lt. Col. of Engineers D. Manuel

HEAD QUARTERS OF THE ARMY, Camp Washington, before Vera Cruz.

March 26, 1847. Outlines of instructions to the Commissi ers appointed on the part of the United States and commissioned by the undersigned to treat with such persons as may be duly authorized on the part of the city of Vera Cruz and its dependencies, on the subject of the surrender

of the same: 1. The whole garrison or garrisons to be surrrendered to the arms of the United States as prisoners of war.

2. The garrisons to be permitted to march out with the honors of war, and to ground arms to such force as may be appointed by the undersigned, and at a point to be agreed upon by the commissioners. 3. The surrendered place to be immediately

garrisoned by the American troops. 4. Mexican officers to preserve their side arms and private effects, including horses furniture, and to be allowed, (regular and irregular officers,) at the end of --days, to re tire to their respective homes on the usual parole, with the exception of such officers as the two parties may deem necessary to accompa-

ny the rank and file to the United States. 5. The rank and file of regular regiments corps or companies, to remain as prisoners of war, subject to be sent to the United States, (with such Mexican officers as may be needed with the men,) and to be clothed and subsisted by the United States, at the ultimate cost of the belligerent that may be agreed up-

on by a definitive treaty of peace. 6 The rank and file of the irregular portion of the prisioners to be detained and subsisted (if necessary) for the time by the United States, when they may be permitted to retire to their respective homes, their officers giving the usual parole that the said rank and file shall not serve again until duly

exchanged. 7. All the material of war, and all public property of every description found in the ity and its dependencies, to belong to the United States; but the armament of the same, not injured or destroyed in the further prosecution of the actual war, may be considered as liable to be restored to Mexico by a definitive treaty of peace.

8. If the Mexican commissioners decline from the want of power or authority, to treat of the surrender of the Castle of San Juan de Ulloa, the American commissioners will urge the former to ask for such powers, and grant any necessary delay to that end; but if such power be not asked for, or be not, on application, obtianed, the American commiss may, unhesitatingly, consent to refer the subject back to the undersigned for further instructions to meet that state of things.

HEADQUARTERS OF THE ARMY, Camp Washington, before Vera Cruz, March 27, 1847. The undersigned, Major General Scott, gen-

of America, has received the report of the commissioners appointed by him, yesterday, to meet the commissioners by his excellency, General Landero, the commander-in-chief of era Cruz and the Castle of San Juan de Uloa. In making that report the undersigned received, informally, from his commissioners, the project of an arrangement presented to them by the Mexican commissioners, consisting of

six articles. Without producing those articles,

in extenso, the undersigned will simply refer to them by their respective numbers:
ARTICLE 1. Is wholly inadmissible. The garrisons of the places, in question, can only be allowed to march out or to evacuate them as prisoners of war; but the undersigned is willing that each garrison, without distinction between regular troops and national guards or militia, may retire, in the delay of to their respective homes—the officers giving for themselves and their respective men, the usual parole of honor not again to serve against the United States of America in the

present war, until duly exchanged. ARTICLE 2. The garrisons may be allowed all the honors of war usually granted to gallant troops; but to surrender their arms of every sort, save the side arms of the officers. ARTICLE 3. As far as practicable by the commissioners of the two armies, this may be ed, that we requested permission to copy it. arranged to satisfy the just pride of the gallant defenders of the places in question.

ARTICLE 4. Is readily agreed to, and may be solemnly promised. ARTICLE 5. This is substantially met in the above remarks under article 1.

ARTICLE 6. Not admissible in any case. Taking the foregoing remarks and the instructions of the undersigned to his commissioners—which instructions were substantially communicated to the Mexican commissioners—as the basis of an honorable capitulation. the undersigned, to spare the further effusion intercourse could not fail to give to the enemy of England, France, Spain, and Prussia, in of blood, is willing to refer back the whole subject to the same commissioners of the two have given his morals a wrong bias, will act parties-provided that the said commissioners meet again to-day at 10 o'clock, a. m., at the of Miss Howard. > The number of officers killed and wounded at the battle of Buena Vista, in proportion to the number of troops engaged, is unprecedented in the annals of warfare. We have, heretofore, assigned one reason for this, viz the barbarity of the Mexican lancers, who, so soon as they found an American officer wounded on the field, immediately despatched him. Another reason was the daring, we had almost said, reckless courage of the officers. In order to encourage their men they were always foremost in the fray. LATEST FROM MEXICO.

From the New Orleans papers of the 6th of Mexican news. Gen. Santa Anna arrived in the Capital on the 17th March, just in time to put down the civil war, which was then and there raging. It is said that he has coalesced with the clergy, and is now all for peace. This, we think, is not at all improbable. The Mexican papers state that Chihuahua, the Capital of the State of the same name, has fallen into the hands of the Americans .-We presume there is no doubt of this, as the

The commercial intelligence is of considerable importance. This arrival brings the intelligence that American provisions-indeed American products of all kinds, have slightly declined. The principal reason assigned for this is the tightness of the English money market. Below we give extracts from the latest English papers, which will shew the state of the markets there. We see it stated that the number of persons employed by the British Government on public works in Ireland. are now 702,228, representing about three millions of people, who have nothing between them and starvation except the Government bounty. This is really an awful picture. The following are the extracts:-

LIVERPOOL MARKET, March 12.—Cotton—A greater depression has prevailed this week than for some time past; the altered state of the money market has increased the gloom previously noticed in the manufacturing districts, and spinners continue to buy very sparingly; speculators and exporters have also confined their operations to small parcels. The Flag of the 27th ult. gives further accounts from Santa Anna's army. They were communicated by a letter dated from Tula, the 11th of March, written by Mexican of-ficer to a friend in Matamoros. The letter says Santa Anna arrived at San Luis Potosi on the 8th ult. He returned at the head of a remnant of one of the divisions of the army with which he marched out to attack General Taylor—the remaining two divisions having marched in directions where food might be procured for the famishing soldiery. The writer remarks of the battle and retreat:— "We have suffered a far greater loss than in any engagement ever before fought in the

country—upwards of four thousand were left on the battle-field or died on the retreat—the army was destitute of provisions of any kind, and the soldiers were rendered ferocious by their privations and suffering; disaffection is fully assured that all the pledges which has wide-spread throughout the ranks, and I may been made in regard to it, will be redeemed it say, the army under Santa Anna is virtually broken up." This letter also mentions the death of several citizens of Matamoros, officers in the Mexican army, who were killed in the late battle. Gen. Taylor arrived at Monterey on the

9th of March with the 1st Mississippi Rifles and the Kentucky Cavalry as an escort, and from an article in the American Pioneer, (a paper published at Monterey,) we infer that he was yet there on the 15th. What day he left Monterey we are not informed, but all accounts agree that he was in pursuit of Gen. Urrea. We extract from a letter in the Flag, dated Camargo, the 23d ult., which purports to derive its information from Major McCulloch:

The Kentucky cavalry are here, having been sent down by Gen. Taylor as an escort to a train. They return immediately, accompanying the Mississippi and Virginia regiments of infantry, who proceed through by the way of China.

Captain Graham's company of dragoons, Capt. BY AUTHORITY

Laws of the United States, Passed at the second Session of the 29th Congress.

[RESOLUTION-PUBLIC-No. 2.1 and men under his command, in the late

military operations at Monterey.

f America in Congress assembled, That the hanks of Congress are due, and are hereby endered to Major General Zachary Taylor, his officers and men, for the fortitude, skill, enterorise, and courage which distinguished the late brilliant military operations at Monterey. Resolved. That the President be requested to cause to be struck a gold medal with devices emblematical of this splendid achievement, and presented to General Taylor as a testimony

of the high sense entertained by Congress of his judicious and distinguished conduct on that memorable occasion. Resolved, That the President of the United with suitable devices, to be presented to Ma-jor General Butler, Major General Henderson, and to Brigadier General Twiggs, Brigadie General Worth, and Brigadier General Quit man, in testimony of the high sense entertained by Congress of their gallantry and good con-

duct in storming Monterey.

Resolved, That the President of the United States be further requested to present a sword, with suitable devices, to the nearest male relative of Brigadier General Hamer, and to communicate to him the deep regret which Congress feels for the loss of a gallant man, whose name ought to live in the recollection and affection of a grateful country

Resolved, That the President be requested to

cause the foregoing resolutions to be communicated to General Taylor, and through him, to the army under his command. APPROVED March 2, 1847.

STANTON & CO'S.

BY THE EX-FRENCH EDITOR. It is a well known fact that oftentimes both those jokes which are called "practical"-and the liquor which is termed "bad," have been productive of exceedingly evil consequences; but whether the liquor or the joke has done the most mischief, we are not called upon just now to determine. We propose to make mention of an affair where bad liquor and a pracecution, when the aim on all sides is to prostical joke were productive of the very best ecute it for the sake of a speedy termination. consequence imaginable.

It is approved and highly recommended by Physicians, and is admitted to be the most powerful and searching preparation from the root that has ever been employed in medical practice. It is not local in its operation, but general, extending through the whole system. It neutralizes the poisonous elements in the blood, and It neutralizes the poisonous elements in the blood, and restores a healthy tone to the organs which generate that fluid. In scrofulops and all external disorders, the result is a rapid healing of the sores and pustules; in rheumatism, and other painful affections of the muscular fibre, a speedy removal of the pain, and in all cases. a renewal of strength, keeping pace with the retreat of the disease from the system. It is put up in a highly concentrated form for convenience and portability, & when diluted according to the directions, each bottle will make six times the quantity, equal to one quart, and is then superior in medicinal value to the various preparations bearing the name. The proprietors are almost daily receiving testimonials of the most respectable character, testifying to its great value as an active and curative medicine.

The following interesting case is presented, and the

Sands-Mr. Oliver's child, of thi place, was attacked with scrofula when two years old place, was attacked with scrottal when two years on, which soon reduced her to atmere skeleton. The disease pervaded the whole system, and manifested itself in a malignant sores on the head, body and limbs. Different physicians in Newark, Belleville and New York, prescriphysicians in Newark, Belleville and New York, prescribed for her at various times, but finally gave up the case as perfectly hopeless. At last Mr. Oliver was induced to try your Sarsaparilla, and accordingly procured four bottles, which was sparingly administered, with many interruptions, yet with the most decided benefit. About two months ago I become acquainted with the circumstances of the case. The child, who is now aged four years, was one complete mass of disease, and incapable stances of the case. The child, who is now aged four years, was one complete mass of disease, and incapable of using any of her limbs. Her body was swollen to nearly twice its nainral size, thehead, limbs, and body were almost entirely covered with large sores.
